Description of Problem

Please include a detailed description of the issues, as well as a description of and a copy of any professional studies, citations or reports from government entities, recommended solutions, and any cost information or estimates. If additional space is needed, please attach.

The support beams holding up the roof have become disconnected in several spots. Additionally, the concrete the beams are supposed to be attached to is disintegrating and cracking. The loose beams and broken concrete pose safety hazards to students and staff. The loose beams may also weaken the integrity of the new roof.

Project Category: Surfaces

Are any of the above-described issues in buildings or part of buildings that are leased to another entity, including a district sponsored charter school? N

Available Funding

Available Funding Source	Amount
Current unencumbered building renewal fund balance (Fund 690):	\$613.82
Amount of Local funds planned for this project	\$0.00

Please outline any associated insurance coverage.

We have dedicated the \$613.82 towards the cost of rewiring the school and therefore do not have it available for this project. Additionally, some of our capital money is dedicated to building a teacherage for teachers. We have had difficulty recruiting and maintaining teachers from outside of Gila Bend. We are in the process of getting proposals for the project.
